As a citizen of many years now (76) including 4 of my youth growing up in battlefield conditions (17 to 21) as a sailor almost around the world twice, I thought this question had been recently resolved. As a tax payer, I see it as a battle to punish the winner by the unhappy losers with little benefit to the taxpayers. When we shot at the enemy with our best aim and 16" explosive projectiles and missed, it did not mean we had done enough. Let it go.
